Product Description

The TM-24-8 Mobile Inmate Telephone Cart is designed to let you move a phone quickly and easily to where it is needed. The cart functions just like a hand truck. When a TMG Inmate Telephone is mounted on the TM-24-8 the telephone handset cord is positioned to be at the appropriate height to enter the food tray slot on most high security doors. Large cleats are positioned inside the back of the cart, away from the reach of inmates, for excess telephone line cord storage.

Applications

- Maximum Security Prisons
- Segregation Housing Units
- Holding Cells
- Psychiatric Wards
- Prison Hospitals
- Any place a temporary phone may be required

The TM-24-8 will accommodate all TMG Inmate Telephones, coin telephones and most competitor telephones. Call to verify which pattern will work for your existing telephone.
